EDUCATION

Deogiri Institute of Engineering & management Studies

11 2022 – 06 2026

B.Tech[AIML] - DBATU - *cgpa - 7.5*

Sambhajinagar, India

Kulbhushan jr. college

06 2021 – 06 2022

Higher Secondary education *percentage - 80%*

Sambhajinagar, India

COURSEWORK / SKILLS

- Data Structures & Algorithms
- Machine Learning
- Network Security
- Database Management System (DBMS)
- Artificial Intelligence
- OOPS Concept
- Model Training

PROJECTS

TwoMinds — AI Debate Arena 🔗 | Python, LangGraph, LangChain, FastAPI, React, Groq

- Built a multi-agent debate system where two Llama 3.3 70B agents autonomously argue opposing sides of any topic — orchestrated by a LangGraph state machine with shared Pydantic state, a judge agent scoring each round on logic, evidence and persuasiveness, and real-time argument streaming via FastAPI Server-Sent Events to a React frontend. Deployed backend on Railway and frontend on Vercel.
Domain: Agentic AI / LLM.
- [Live site here](#)

Spotify Songs Prediction Model 🔗 | Python, Pandas, Numpy, Joblib, Streamlit, Github

- Built a personalized music recommender system using Machine Learning, Deep Learning, and Association Rule in order to predict user song preferences and generate recommendations, with model evaluation along with deployment.
Domain: Machine Learning.
- [Live site here](#)

Founder reserach agent 🔗 | Python, LangGraph, LangChain, Docker

- Autonomous AI agent that conducts deep research on founders and CEOs — autonomously browses the web, extracts structured intelligence, maintains iterative memory, and synthesises professional reports using LangGraph and Groq. Engineered an autonomous multi-step AI research agent using LangGraph state machines and Groq (Llama 3.3 70B) capable of independently planning, searching, scraping, and synthesising structured intelligence reports on any founder or CEO
Domain: Agentic AI / LLM.

TECHNICAL SKILLS

Languages: Python, Java, C, C++, JavaScript, SQL, NoSQL

- **Programming & Data Handling:** Python, SQL, Pandas, NumPy
- **Deep Learning:** Neural Networks, Keras, TensorFlow
- **Statistics & Mathematics:** Probability, Hypothesis Testing, Linear Algebra
- **Forecasting & Predictive Analytics:** Time Series Analysis, Trend Prediction
- **Data Visualization:** Matplotlib
- **Model Evaluation & Deployment:** Accuracy, ROC AUC, Confusion Matrix, Model persistence with Joblib

EXTRACURRICULAR

Deogiri Institute of Engineering and Management Studies 🔗

11 2022 – 06 2026

Management

Sambhajinagar

- Training and Placement Committee Member
- QUASARS Annual Gathering Management
- Artificial Intelligence Students Association Member
- Successfully managed a college trip of 50 members, including faculty.
